	20 Year Resale Home (c. 1992) <sup>2</sup>	10 Year Resale Home (c. 2002) <sup>2</sup>	2006 IECC Code Home (c. 2006) <sup>3</sup>	2009 IECC Code Home (c. 2010) <sup>4</sup>	This Home <sup>5</sup>
Est. Electricity Usage (kWh)	19126	18097	15460	15260	11024
Est. Natural Gas Usage (Therms)	N/A	N/A	N/A	N/A	N/A
Est. Annual Utility Costs <sup>1</sup>	\$1832	\$1728	\$1467	\$1448	\$1099
<b>HERS® Index Score</b>	<b>133</b>	<b>121</b>	<b>97</b>	<b>98</b>	<b>65</b>

<sup>1</sup> Annual utility cost estimates are based on local electric utility tiered power rates and a Southwest Gas Rate at \$1.1940/Therm. Annual Utility Costs are estimates only and are not a guarantee of performance. Annual energy consumption is greatly impacted by occupancy behavior and will vary by home.

<sup>2</sup> 20 Year Resale Home and 10 Year Resale Home features are based on TABLE R3-50 - DEFAULT ASSUMPTIONS FOR EXISTING BUILDINGS - VINTAGE TABLE VALUES in Appendix B of the 2008 Title 24 Residential Compliance Manual.

<sup>3</sup> 2006 IECC Code Home features and HERS testing are based on TABLE 402.1.1 Requirements in the 2006 International Energy Conservation Code.

<sup>4</sup> 2009 IECC Code Home features and HERS testing are based on TABLE 402.1.1 Requirements in the 2009 International Energy Conservation Code.

<sup>5</sup> This Home assumes features and HERS Testing requirements according to the individual energy modeling documentation per plan under the current International Energy Conservation Code.
